

About Vistra Canada

Introduction

Canada, with an area of 9.98 million square kilometres and an estimated total population of 36 million. Canada is a federation of ten provinces, which together with three territories comprise the world's second largest country.

Canada is one of the world's top ten trading nations, and it is experiencing rapid growth in the high technology and services industries. Coupled with China being Canada's largest trading partner, many Canadian companies are looking to explore the opportunities in China/Asia.

Known as a gateway to Asia, Hong Kong is uniquely positioned to assist in such international expansion. With its low tax regime, developed legislation, and the Hong Kong-Canada tax treaty, there are many benefits for utilising Hong Kong when looking to doing business in China and/or Asia.

Our services

Vistra Canada offers a one stop integrated solution for companies looking to doing business in Hong Kong and/or China.

Doing Business in China

Entering China can be daunting for those not familiar with the environment, and seemingly simple business decisions may have a negative effect. With local knowledge and experience, Vistra can set up the China structure, conduct due diligence, and assist in finding a China office/factory space. In addition, we can assist in the backend preparation—payment systems, bank accounts, tax filings, work visas and employment contracts so businesses can launch with ease.

Vistra is physically present in the commercially vibrant cities of Beijing, Guangzhou, Shanghai and Shenzhen where teams of experienced professionals deliver a full corporate solution to clients seeking assistance and advice on the Chinese market.

Hong Kong as a Gateway

We are able set up a Hong Kong company or registered office for businesses wishing to enter Hong Kong or use Hong Kong as a gateway to China. From our Hong Kong office, we can act as the company secretary and bank signatory, and assist in international projects. We can also assist in work visas and employment contracts should company staff be needed.

Virtual CFO

We act as an independent third party in the role of a virtual CFO, presiding over the statutory accounts and filings of the company in China. Stakeholders and senior management can rely on our team of professionals to provide objective accounting service, financial budgeting, payment management, tax filing, treasury, and regulatory compliance services.

Trade Services

Handling trade affairs may be difficult with time zones and language barriers. Servicing Canadian companies trading with China, Vistra offers vendor/customer relationship management, product testing coordination, logistic arrangements, and factory audit. As we can speak the local language, we also offer trade fair assistance to ensure negotiations are mutually understood.
